

Homebound

Homebound delightfully unravels the homeward romp into an eloquent, graceful tune.

If home is lost, destroyed and you have nothing left, and no one to turn to, what do you do? This show is about finding home. Using cutting edge projection, live video feed, original immersive media and unbridled, athletic enthusiasm, you will witness a wild odyssey toward a crazy version of home and belonging.

While on the long journey home, three lost women find they are more resilient and stronger if they work together. With each zany and unexpected challenge, they discover that home is more than a destination. Getting there sometimes just means looking to your left and right. This world premiere at the Fringe promises to delight and entertain. You will be humming the song on your way home.

From the state of Louisiana in the deep south of the United States, LSU Theatre & Film world premiere's their ninth new devised piece to the Fringe. Founding member of Diavolo, Nick Erickson, directs the company using dance, acrobatics and innovation to tell this timeless story.
